

Carleton Data History as Reported in the Common Data Set

Note: The Common Data Set (CDS) is a standard survey instrument collected annually by several major college guidebooks. Although it is intended primarily as a data collection instrument, we have calculated key ratios to make it more useful to the typical user. Some corrections have been made to data originally provided to the Common Data Set. There are some differences in the way data were reported from year to year, due to changes in CDS questions or local data reporting practices. See: <http://www.commondataset.org>

Note: Carleton adopted new federal reporting mandates for race/ethnicity in 2010-11, so reporting is not entirely comparable to previous years. "Hispanic" is now treated as an ethnicity, regardless of other racial status. Students may now identify as "Two or more races". The Asian/Pacific Islander category was divided into Asian and Native Hawaiian/Pacific Islander categories. Total percent minority includes: Black, non-Hispanic; American Indian or Alaskan Native; Asian; Hispanic, Native Hawaiian or Pacific Islander; Two or more races. Carleton students are normally expected to be enrolled full-time, so the Fall full-time degree-seeking undergraduate headcount is the usual official enrollment number cited.

Applied Music faculty are reported with CDS faculty, starting in 2016-17.

(The Carleton Regular Faculty count looks at the core of long-term faculty, including tenured, tenure-track, and continuing faculty, but excluding leave replacements, visiting faculty, adjuncts, emeriti, and administrators who teach a course or two.

Various internal and external reporting methodologies may differ from Common Data Set counts.)
