**Summary of utilization management programs**

HealthPartners utilization management programs help ensure effective, accessible and high quality health care. These programs are based on the most up-to-date medical evidence to evaluate appropriate levels of care and establish guidelines for medical practices. Our programs include activities to reduce the underuse, overuse and misuse of health services. These programs include: Inpatient concurrent review and care coordination to support timely care and ensure a safe and timely transition from the hospital, “Best practice” care guidelines for selected kinds of care, Outpatient case management to provide care coordination, The CareCheck® program to coordinate out-of-network hospitalizations and certain services.

We require prior approval for a small number of services and procedures. For a complete list, go to [healthpartners.com](http://healthpartners.com) or call Member Services. You must call CareCheck® at 952-883-5800 or 800-942-4872 to receive maximum benefits when using out-of-network providers for in-patient hospital stays; same-day surgery; new or experimental or reconstructive outpatient technologies or procedures; durable medical equipment or prosthetics costing more than $3,000; home health services after your visits exceed 30; and skilled nursing facility stays. We will review your proposed treatment plan, determine length of stay, approve additional days when needed and review the quality and appropriateness of the care you receive. Benefits will be reduced by 20 percent if CareCheck® is not notified.
