DATA MANAGEMENT PLAN

PI:

PROJECT TITLE:

This template is meant to help applicants to the NSF meet the Foundation’s requirement that all proposals submitted after January 1, 2011, include a supplemental "Data Management Plan" (no more than two pages in length) which demonstrates how the principal investigator of the proposed project will fulfill the NSF’s Data Sharing Policy, in the PAPPG Chap XI.D.4.

More information on the NSF policy can be found on

- the Grants Office website, and
- NSF’s Dissemination and Sharing of Research Results page.

1. Types of Data and Other Research Products

2. Standards Used for Format and Content of Data and Metadata

3. Access and Sharing Policies

How will these access and sharing policies provide appropriate protection of privacy, confidentiality, security, intellectual property, or other rights or requirements?

5. Plans for Archiving Data and Other Materials Produced

6. Plans for Preserving Access to Data and Other Research Products
