### **A. About**

The Carleton Student Association (CSA) is Carleton's student government, which primarily exists to advocate for student interests, play an active role in shaping College policy, charter and financially assist student organizations, protect student rights and freedoms, and serve as a forum for the discussion and advancement of student ideas.

### **B. CSA Structure**

The CSA Senate achieves most of its major objectives/projects/initiatives through subcommittees and working groups.

- 1. Working Groups:** Working groups are ad hoc or temporary committees that work on specific issues in CSA Senate. Most of them meet two or three times a term. They are usually comprised of both Senators and students-at-large. And most Senators are part of more than one working group. Examples of ongoing working groups (2019-2020) include the **CSA Textbook Library**, which collects textbook donations and distributes them to low-income students on-campus and the **Mental Health** working group, which collaborates with OHP to improve the mental health and wellness environment at Carleton.
- 2. Subcommittees:** The CSA Senate (or its subsidiary bodies, e.g. Governance Committee) sometimes renews or creates subcommittees to focus on a particular issue of Senate or student interest, e.g. Executive Pay. They report directly to Senate.

The CSA Senate also convenes the following committees to assist with major events.

- 1. Election Committee:** This committee is convened by the CSA President to plan, conduct, monitor, and tally the election and referendum results, and enforce the Election Rules outlined in the Bylaws.
- 2. Constitutional Review Board:** The Board, when charged by the CSA President or a majority vote of the Senate, conducts an annual review of the Constitution and Bylaws during Winter Term and recommends changes to the Senate after this review.

***E. Parliamentary Procedure at a Glance***

The following tables depict parliamentary procedure at a glance. The motions in the first table are listed in order of precedence. For all motions, you need a second and you may not interrupt the speaker. For more information, you should consult *Robert’s Rules of Order Newly Revised*, which is provided to you by the Chair or is available on the CSA website.

## IV. Guide to Writing Legislation

### A. *What Is Legislation?*

- a. Legislation expresses the opinion of the student body via the body of representatives it has elected, declares the actions and plans of the Student Government, and sets up the structures for its operation. The CSA Senate is the legislative body of the CSA i.e. it makes student government legislation.

### B. *Who Writes Legislation?*

- a. Legislation often originates in committees or working groups, whose members have become aware of an issue or program because of their own initiative and investigation of their area of responsibility.
- b. Legislation can also be written by individuals. All legislation should be sponsored by at least one Senator, though it may be authored by anyone in CSA Senate or even other student organizations or individuals.

### C. *What Are the Different Kinds of Legislation?*

CSA Senate recognizes three (3) types of legislation, namely, **Resolutions**, **Acts**, and **Amendments**. Other student governments across the United States also recognize **Bills** and **Procedural Motions**.

#### 1. **Resolutions:**

- a. Resolutions express the opinion of the CSA and, thereby, of the student body. They can reflect on college policies or actions, recent events, or proposed changes in policy or plans for the future.
- b. Resolutions are the most common form of legislation. Anything that we want changed at Carleton but can't physically enact or enforce is made official by resolutions. Past CSA resolutions have addressed dining hall food, Minnesota Voter ID laws, gender-neutral bathrooms, and many other topics.
- c. Sponsorship from a voting member of Senate is needed for legislation written by a non-student government member.
- d. Number of readings needed to be voted on: 1. Votes needed: simple majority.

#### 2. **Acts:**

- a. Acts are President or Vice-President sponsored/authored legislation. Acts represent initiatives and campaigns under individual CSA administrations. They are presented and voted upon the same way as normal legislation.

- b. An act can have multiple parts and is usually more substantial than regular legislation.
- c. Number of readings needed to be voted on: 2. Votes needed:  $\frac{2}{3}$ .

### 3. Amendments:

- a. Amendments propose changes to the CSA Constitution or Bylaws, our founding documents. They can correct and clarify, or improve the organization of the existing document(s), or they can propose substantive changes to the way CSA is run.

#### ***D. How Should a Resolution be Formatted?***

Resolutions of the CSA Senate take the form outlined in *Robert's Rules of Order Newly Revised (10th ed., pp. 100-105)*. For more information, you should consult the CSA Resolutions Guide [here](#).

1. **“Whereas”** clauses list the reasons for taking the particular stance the resolution requests. It should lay out the logical premises for the conclusion its author wishes CSA to adopt as its official opinion.
2. Then, the resolution lists a number of clauses stating what CSA resolves. The first such clause is **“Therefore, Let It Be Resolved,”** middle such clauses read **“Let It Be Further Resolved,”** and the final such clause is **“Finally, Let It Be Resolved.”**
3. All **“Whereas”** clauses should end with “and,” except for the last **“Whereas”** which ends with a period. All resolved clauses should do the same. Each of these beginning clauses should be bolded.
4. The **“Therefore, Let It Be Resolved,”** clause is our acting clause. The sponsored course of action should be put in this segment. Make sure the main point of the summary is repeated in this section.
5. There can be multiple segments of the acting clause. The pattern is simple; the first phrase is always the transitional phrase, **“Therefore, Let It Be Resolved.”** Any phrases after that are, **“Let It Further Be Resolved,”** and the concluding phrase is always, **“Finally, Let It Be Resolved,”**

#### ***E. How Do You Pass Each Type of Legislation?***

- a. Resolutions require only one reading, and thus can be voted on at the meeting they are introduced, and need a simple majority vote in order to be passed.
- b. Amendments to the CSA Constitution require approval of the entire student body. Amendments to the CSA Bylaws do not.

#### ***F. Before Submitting Legislation, Please Consider:***

- a. Has enough research been done on the topic?
- b. Have the authors talked to the relevant administrators?
- c. Might it require funding?
- d. Is there an alternative solution?

- e. Is the legislation possible?
- f. Does the solution fit the nature and mission of Carleton College?
