OFF-CAMPUS STUDIES

- SENIOR CLASS 2021
- ACADEMIC YEAR 2020-21

Senior Class 2021

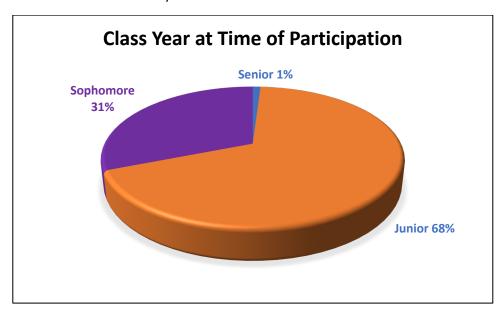

- 319 individuals participated 374 times in off-campus study programming during their four years or 12 terms
- 10 of these individuals participated in the spring break 2020 and the winter break 2020 programs that had their field trips cancelled due to the pandemic. There are a few spots where this total is used*, but for the most part, the report covers only those students who studied off-campus.

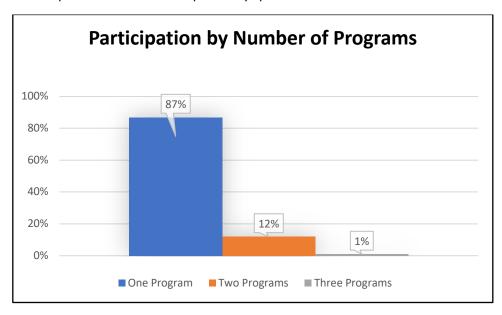

While the majority of students participated on Carleton programs, the majority of programs students participated on were non-Carleton. A total of 120 programs, three of which were the online spring break 2020 and the winter break 20 programs.

The majority of participation occurred during the junior year. Some went during their sophomore year, and a few went when they were seniors.

As always there are students who participate in OCS programs more than once. Not even a pandemic can keep the Carleton off-campus study spirit down!
