The University of Strasbourg introduces the new international integrated MSc/PhD program “Complex Systems Chemistry” (CSC), starting in September 2021.

Apply by March 1st, 2021
Over the past two decades, researchers in Strasbourg have been at the cutting-edge in the emerging field known as the complex systems chemistry (CSC).

Strasbourg, a very pleasant place to live!

- Strasbourg is an exciting place to study with over 50000 students, one of Europe’s most attractive cities and home to many European institutions. 50% of the PhD students come from abroad.

Complex Systems Chemistry

- Over the past two decades, researchers in Strasbourg have been at the cutting-edge in the emerging field known as the complex systems chemistry (CSC).
- In 2010, Strasbourg was awarded a cluster grant (LabEx CSC) for excellence on this topic.

The mission of the Complex Systems Chemistry (CSC) Graduate School

- Prepare a new international generation of researchers for the profound changes that CSC will bring to industry and academia.
- Use CSC as a tool for innovation.
- Create the leaders of tomorrow for both academia and industry.

Financial supports

- **MSc scholarship:**
  - 7200€ / year during 2 years.
  - Up to 1000€ to cover moving costs.
  - Exemption from registration fees.
- **PhD fellowship:**
  - 1400€ / month during 3 years
